

FANATICAL VOICES

Integricity's monthly newsletter offering goodies, special offers, tips and tricks, useful articles and latest news about Integricity and its services.

Welcome message from Jek Tan, Operations Director, Integricity Corporation

Let's face it. The recent hike in fuel prices has hit us hard in the wallet. While we all have millions of opinions on how the fuel prices should be managed in our country, we believe that there are still many more things that we can do to increase efficiency.

IT has always been acknowledged as a business tool and an enabler of business process reengineering exercises. Whilst the price of fuel and energy continues to go north, the price tag of IT products and services remains competitive. Now more than ever, organizations should consider taking advantage of the affordable IT prices to increase efficiency, improve productivity and serve customers better.

We're pleased to let you know that we have decided to keep our prices despite the increasing prices of everything else. In fact, we look forward to continue providing you with the Fanatical Service you deserve - going the extra mile, understanding your business, as well as delivering the results you deserve.

Finally, readers who have been asking for more tech-related tips will be pleased to know that in this issue of Fanatical Voices, we have included some useful Windows key shortcuts.

As always, your feedback is welcome and encouraged. Have a good year ahead.

Fanatically yours,

Jek Tan
Operations Director

Tech Tips : 7 Windows Key Shortcuts

Try these keyboard shortcuts using the Windows key to help you perform several common tasks on Windows faster!

Windows key

To open **Start** menu

Windows key + E

To launch a new **Explorer** window.

Windows key + F

To launch the **Find** dialog box.

Windows key + R

To launch the **Run** command.

Windows key + M

To **Minimize** all open windows.

Windows key + Shift + M

To **Maximize** all windows which were previously minimized.

Windows key + D

To **toggle** between Minimizing and Maximizing windows.

The Windows key is located between the Ctrl and Alt keys. If it is not present on your keyboard, you do not have a Windows keyboard.

Thank you for taking the time to read Fanatical Voices. We hope this month's issue was informative and helpful!
