Integracity's **monthly newsletter** offering goodies, special offers, tips and tricks, useful articles and latest news about us and our services.

## Welcome message from Lisa Lim Manager Integracity Press

Time really flies. It's already been 3 months since I joined the Integracity family and the day I came aboard, I must say that the two words that kept looping over and over in my head were 'food' and 'web'! Curious? Let me tell you why.

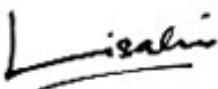

Integracity Press is another newly established company under the umbrella of Integracity Corporation and since its establishment, our plates are full with two upcoming projects, a food portal and a dining guide. So it has been

a busy 3 months since for the entire team developing.....what else, a food portal whilst getting prepared for the new food guide. Nevertheless, it's been a fun and 'hungry' journey for me.

The dining guide is an ultimate guide to the best eateries around KL is written by Fay Khoo, a veteran writer and self-confessed food connoisseur. You will know what I mean when you visit [www.faykhoo.com](http://www.faykhoo.com).

At this juncture, I will not reveal too much on the food portal just yet. Let it be a surprise for you. So do stay online, we will definitely keep you in the loop!

Fanatically yours,

Lisa Lim  
Manager

## Have you installed XP Service Pack 3? By Eugene Lim

# Windows<sup>XP</sup> SP3

Those who have refused to migrate over to Vista would have scoured the net for the latest service pack for XP. Since it is not available on Automatic Updates just yet, you will have to either get it off a torrent site (risking it being infected with trojans & worms) or rummage through Microsoft.com for it.

Find out more whether there is any significant difference in Service Pack 3.

## Modern crimes that are mistaken for brilliance By Jek Tan

I am not sure whether it is a good thing or not, but I'm from the P.N. (pre-Napster) period. Before Napster I had volunteered to assist a webmaster (who ran TheMusicLover.net: it no longer exists) to rip and upload Mp3s.

Read on more about how other modern crimes get mistaken as brilliance.

## Lively addition to the Google universe By TJ Tee

Earlier this month Google announced the launch of Lively, a 3D virtual world inhabited by avatars - online alter egos that at times bear very little resemblance to their creators
